	7			
Course Content:		In this course, it is aimed for students to gain awareness about family, family interactions and close relationships within the framework of family therapy theories and to apply this awareness to the problems that may arise within the family and the psychological problems that family members may experience. In this course, family life and gender issues will be discussed in the context of the relationship of the family as a system with the broader systems of culture and society. Additionally, intervention techniques will be discussed in the context of marital problems.
