Course Content:	This course comprehensively covers marketing and communication processes in healthcare institutions. It focuses on the fundamentals of marketing in healthcare, target audience analysis, positioning, brand management, patient satisfaction, and complaint management, as well as digital marketing, social media management, and public relations practices. Ethical principles, patient rights, and relevant legislation in healthcare communication are examined. Students have the opportunity to develop marketing plan development, crisis communication management, and team communication skills. The course aims to put theoretical knowledge into practice through case studies, group work, and project presentations.
